**Department of Statistics
Syllabus for the Value-Added Course
Academic year 2023-2024
Eligibility: For all the Branches**

Course Name: Introduction to Research Methodology

(30 Hours)

Course Objectives:

1. Explore Research Concepts
2. Develop Research Design Skills
3. Enhance Data Collection and Analysis Proficiency
4. Foster Communication of Research Outcomes

Course Outcomes - Students will be able to familiarity with the research methodology concept.

1. Understanding Research Fundamentals
2. Designing a Research Study
3. Data Collection and Analysis Skills
4. Effective Communication of Research Findings

Module 1: Foundations of Research Methodology

Understanding Research

Concept of research, emphasizing its importance in various fields. Definition of research, its objectives, and the significance of research in generating knowledge and solving real-world problems. Different types of research, including exploratory, descriptive, and explanatory research.

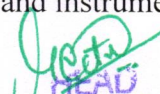

Research Process and Design

The research process, outlining its stages from identifying a research problem to presenting findings. Formulating research questions and hypotheses, selecting appropriate research designs, and understanding qualitative and quantitative approaches. The importance of literature review and ethical considerations in research.

Module 2: Data Collection and Analysis Techniques

Data Collection Methods

Various data collection methods, including surveys, interviews, observations, and secondary data analysis. Each method's strengths and weaknesses will be examined, alongside practical considerations such as sampling techniques and instrument design.

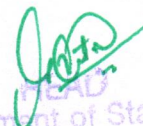

HEAD
