## Workshop on IP rights, patents conducted at VSU

NELLORE: Vikrama Simhapuri University organised a one-day workshop on the 'Essentials of Intellectual Property Rights, Patent Drafting and filing' in association with Atal Community Innovation Centre-Audisankara Innovation and Incubation Centre on Thursday. Daiva Prakash, Senior General Manager-Product Development of Amara Raja batteries, Tirupati, said the translation of innovative ideas into commercialisation is a major task and it could be achieved only by protecting the ideas through patenting them.

Resource person Dr A Balaji Ganesh, Dean-Research, Velammal Engineering College, Chennai, explained the basics of IPRs and patent drafting procedures.

Dipak R Kulkarni, Head-Product Development, Bharat Alt-Fuel Private Limited, Mumbai, mentioned uses of intellectual property rights and patenting innovative ideas for the commercialisation of products. VSU Registrar Dr P Ramachandra Reddy, Prof A Prasad from VSU and Dr A Immanuel from the Audisankara College addressed the gathering.

## CAREER GUIDANCE PROGRAMME

Date:27-07-2022

On 27<sup>th</sup> July 2022, our University Library organized Career Guidance Programme for Students that was held in the University Seminar Hall. The chief guest was the Registrar.

The programme was started by Our University ANTHEM. After that All Guests are the welcomed by Srikanya Rao.

The Presidential Opening Remarks and complete objectives of the programme given by Dr.T. Veera Reddy, Principal (I/c), Vikrama Simhapuri University College. Dr.Y.Sudha Rani, Library In-Charge, introduced the Distinguished Guest.

Then our Chief Guest Registrar, Dr.P.Ramachandra Reddy, given a motivation speech to the students and shared the ideas.

**Speech by Our Chief Guest Registrar, Dr.P.Ramachandra Reddy**

**Participation of Students in the event**

**Brahmas IAS Academy Director, Sri.P.Brahmananda Reddy**

Brahmas IAS Academy Director, Sri.P.Brahmananda Reddy were given advice about the pattern of exams, their preparation techniques, strategies to succeed in the competitive world. Also boosted confidence and mentally prepared them for competitive exams.

- Gave login to Brahmas Academy App, an online app, where exam oriented questions, topic wise, daily current affairs are available.

This is helpful in bringing more conceptual clarity for the students. Individual assessment is also done and doubts are also cleared at the individual level

This programme is ended with the vote of Thank you by Dr.Y.Sudha Rani.

## Endorsement from the Head of the Institution of Co-PI

This is to certify that:

1. Institute welcomes participation of Name : Dr. BUDDOLLA VISWANATH, Designation: **Director, Dr. Buddolla's Institute of Life Sciences, Tirupati** as the Principal Investigator and DR. PITCHIKA GOPI KRISHNA, Assistant Professor, Dept. of Zoology, Vikrama Simhapuri University, as the Co- Investigator for the project titled "**Exploring novel approaches for easy and quick detection of circulating tumor cells (CTCs) for quick breast cancer management**" and that in the unforeseen event of discontinuance by the Principal Investigator, the Co-Investigator will assume the responsibility of the fruitful completion of the project with the approval of SERB.
2. The Co-PI, DR. PITCHIKA GOPI KRISHNA is a permanent or regular employee of this Institute and has 18 years of regular service left before superannuation
3. The Co-PI will be governed by the rules and regulations of Institute and will be under administrative control of the Institute for the duration of the project.
4. The grant-in-aid by the SCIENCE & ENGINEERING RESEARCH BOARD (SERB), New Delhi will be used to meet the expenditure on the project and for the period for which the project has been sanctioned as mentioned in the sanction order.
5. No administrative or other liability will be attached to SCIENCE & ENGINEERING RESEARCH BOARD (SERB), New Delhi at the end of the project.
6. The Institute will provide basic infrastructure and other required facilities to the investigator for undertaking the research project.
7. The Institute will take into its books all assets created in the above project and its disposal would be at the discretion of SCIENCE & ENGINEERING RESEARCH BOARD (SERB), New Delhi.
8. The Institute assumes to undertake the financial and other management responsibilities of the project.

### Abstract

A simple and environment friendly one-pot synthesis of ethyl 3,5-dicyano-6-oxo-2,4-diarylpiperidine-3-carboxylate derivatives from aryl aldehydes, ethyl cyanoacetate, and ammonium acetate was developed in aqueous medium without using a catalyst. The significant features of this method are easy, inexpensive experimental procedures with short reaction time and high yield. The use of water as the solvent without catalyst makes the reaction ecofriendly and further fulfilled green chemistry protocols. The compounds were screened for antibacterial activity against Gram-positive bacteria (*Staphylococcus aureus* 25923) and Gram-negative bacteria (*Escherichia coli* ATCC25922) by disk diffusion method. Compounds **4f**, **4h**, and **4i** showed moderate antibacterial activity *S. aureus*. Intriguingly, compound **4g** exhibited very good antibacterial activity against *E. coli*. Antitubercular activity assay indicates that the compounds **4(a-c)** exhibited activity with varying MICs against *Mycobacterium tuberculosis* H37Rv control strain and multidrug-resistant tuberculosis (MDR-TB) clinical isolate. Among the three tested compounds, **4c** showed an equipotent antitubercular activity against H37Rv and MDR-TB clinical isolates with MIC 3.13 µg/ml. Further, docking analysis of synthesized piperidinone derivatives with acetate kinase protein reported that these compounds interact effectively with the catalytic residues that are in the vicinity of ATP binding and active sites facilitating inhibition of enzyme function. Thus these derivatives can be promising compounds for antitubercular activity to combat tuberculosis.

### Introduction

The synthesis of heterocyclic compounds has been an important area of study since long time, as these molecules are usually used in various fields such as agriculture, medicine, pharmacy, and contribute to potent and selective drugs (Varma 1996). The development of an environmentally benign and viable procedure for the synthesis of organic compounds is one of the important goals to be achieved by organic chemists (Ali et al. 2015; Butler and Coyne 2010; Rao et al. 2015). Synthesizing novel bioactive compounds with minimum number of synthetic steps and in a short time is a significant challenge to the scientists (Ali et al. 2012; Kaur et al. 2015; Salem et al. 2013). One-pot reactions have become popular in organic synthesis and combinatorial chemistry because of their straight forwardness, less reaction time, use of green solvent, fewer byproducts, simple experimentation, and high yield of

### Abstract

**Introduction:** Systematic testing for Severe Acute Respiratory Syndrome CoronaVirus-2 (SARS-CoV-2) using molecular diagnostic tools to identify individuals with coronavirus disease 2019 (COVID-19) infection, and tracing their primary and secondary contacts is important to curb its spread. With resource limitations on testing individual samples, testing of pooled samples provides alternative approach to increase testing capacity. Present aimed at assessing the detection of SARS-CoV-2 RNA in pooled samples using chip-based real-time polymerase chain reaction Test (Truenat™ Beta CoV).

**Materials and Methods:** Pooled sample size of five was used from laboratory confirmed COVID-19 positive and negative samples. SARS-CoV-2 positive nasopharyngeal specimens of known samples from high, medium, low, and very low viral load were mixed with SARS-CoV-2 negative nasopharyngeal specimens of known samples in 1:4 ratio, followed by analysis using Truenat. Furthermore, each sample in that pool was tested individually. Pooled sample testing was also done on the samples of unknown status.

**Results:** The results of the present study showed cycle threshold (Ct) values of pooled sample with SARS-CoV-2 positive RNA of high, medium, low, and very low viral load were 16.8, 24.22, 28.2, and 33.43, compared to Ct values of individual samples of 16.43, 22.0, 28.00, and 33.00, respectively.

**Conclusion:** These results suggest that the Ct values of pooled samples were in agreement with Ct values of individual samples indicating the validity of pooled sample testing for screening SARS-CoV-2 using Truenat.

## ABSTRACT

**Purpose and objectives:** Detection of drug resistance plays a crucial role in tuberculosis (TB) treatment and prevention of *Mycobacterium tuberculosis* (MTB) transmission. The aim of this study was to determine the levels and patterns of resistance of MTB isolates to two key anti-TB drugs (rifampicin, RIF and isoniazid, INH) and the type of mutations in drug resistance genes (*rpoB*, *katG* and *hcrA*) of the isolates of the southern coastal region of Andhra Pradesh, India, using commercially available GenoType MTDRplus assay under the Revised National TB Control Program.

**Methods:** GenoType MTDRplus assay was performed on 2838 sputum smear-positive samples and the mutations in the genes responsible for resistance (*rpoB*, *katG* and *hcrA*) were analyzed.

**Results:** Among the line probe assay (LPA) valid isolates (2804), 1560 (55.70%) were drug susceptible, 457 (16.33%) were INH monoresistant, 104 (3.50%) were RIF monoresistant, and 343 (12.14%) were multidrug resistant. Codon 531 of *rpoB* gene and codon 315 of *katG* gene were found to have the highest mutation frequency for RIF resistance (770/467; 57.87%) and INH resistance (301/903; 33.33%), respectively. The RIF resistant *rpoB* mutations observed in the samples were S531L (57.81%), R526Y (6.54%), D116 V (4.49%), and H556D (6.30%). Mutations in *hcrA* promoter were found in 24.75% INH resistant isolates with C15T being the most common (85.85%). The turnaround times of the LPA test were from 48 to 72 h.

**Health camp at Indiramma colony  
(21-08-2018)**

VSU NSS Cell in association with Damien Foundation Urban Leprosy & TB Research Centre conducted a health camp at Indiramma colony, Padarupalli (PO), SPS Nellore. Damien Foundation Urban Leprosy & TB Research Centre is run by the renowned NGO Damien Foundation India Trust (DFIT). A door to door awareness was created about the medical camp a day before the camp by 38 VSU NSS volunteers. Nearly 126 residents of Indiramma colony have benefitted from this medical camp. Consultation and medicines were given free of cost by DFIT. DFIT Doctor, Dr. Sukruthi, Shri M. Thyagarajan, AO, Leprosy hospital staff and NSS programme coordinator, Dr. Uday Sankar Allam participated in the medical camp.

## EDUCATIONAL TOUR

04-08-2022,  
NELLORE

**PLACE OF THE VISIT:** Hi-tech Pharma, Pothireddypalem, Nellore

### OBJECTIVES:

The objectives of the tour are

- To gain knowledge of industrial exposure and the processes involved in fermentation technology.
- To know how the industry is working regarding production along with R&D conditions.
- To acquire knowledge regarding the instrumentation involved in the development, production, downstream processing and packing.

### REPORT:

The study tour was planned as per the curriculum and was organised on Friday the first week of September 02-09-2022) to Hi-tech Pharma which has been registered with the Ministry of Corporate Affairs as 'Hi-tech Life Sciences PVT. Ltd, located in Nellore. In the morning at 9:00 a.m. students and teaching faculty members, Prot. Vijay Anand babu (H.O.D, Dept. of Microbiology), Dr. C. Kiranmai (Asst. professor, H.O.D, Dept. of Biotechnology). Dr. K.V.L. Shrikanya Rao (Asst. professor, Dept. of Biotechnology), Dr. G. Vidya Sagar Reddy (Faculty, Dept. of Biotechnology) and Dr. Praveen gathered at Vikram Simhapuri University, Kakatur, Nellore and started at 9:30 a.m. and reached around 11:00 a.m. to Hi-tech Pharma.

Hi-tech Pharma has its foundations and accumulated expertise, decades of experience, and a deep understanding of the demands of business started its operations in 1999. It was founded by Mr. N. V. Ramana Reddy and has a team of expert doctorates and professionals manning product development and management. This evolving entity focussed on Nutrition, environment, and health management for aquatic and poultry. The dedicated facilities have been set up since, for the production of a wide range of premixes and probiotics for animals (cattle, poultry) and aqua life (shrimps, prawns, fishes, etc.). The company was registered with Reg No: AMS-K14311 and ISO 9001 2008 (quality policy).

The Biotech division in the industry includes Probiotics development involving the fermentation process where huge fermenters were used for fermentation using *Socchoromyc* culture incubated at 48°C for 48 hours supplemented with Vitamins (B & K). These were maintained at the highest quality standards. Then the fermented culture was transferred to the photosynthetic unit where the fermented culture was incubated till a change in its colour (transfer of energy). Then the liquid obtained is dried and powdered. The feed which is in the form of powder (solid) was packed accordingly to the market need. Other equipments used in

the industry were: fermenter, electric spray drier, autoclave, shaking incubator, rotatory shaker, hot air oven, weighing balance, calorimeter, U.V light filter, pH meter, Hot plate, heating mantle. The end products produced by the company are Natural Aqua Feed Supplement and Natural Animal Feed Supplement.

**OUTCOME:**

The educational tour of the Hi-tech pharma industry in Nellore is an excellent opportunity for students to get an insight into the working of the industry.

The tour covers all the significant aspects of the industry, from the manufacturing process to product development.

Students acquired knowledge regarding the instrumentation involved in the R&D conditions in the industry, the actual production process, downstream processing and packing.

Students and faculty members also got a chance to interact with industry experts and get their valuable feedback.

**CIRCULAR**

I am by direction to inform all the faculty, research scholars and students that a two-day International Seminar on "Impact of Globalization on MSMEs- Prospects, Challenges and Policy Implications on Growth." will be scheduled for two days i.e. from 29-03-2019 to 31-03-2019. Hence, all are cordially invited to attend the programme and make the event a grand success.

  
Principal  
Principal  
Vikrama Simhapuri University College  
Kakuturu - 524 320.  
SPS Nellore District. A.P.

## Brief Report

During the seminar i.e. on the first day (29-03-2019), Principal, Prof. K. V.S. N. Jawaharbabu addressed the gathering and invited all the guests. The organizing secretary highlighted the objectives of the seminar. Prof. R. Sudarsana Rao and Prof. K. Rama Mohan Rao mentioned about the perspectives of Micro, Small & Medium Enterprises (MSMEs) and its impact on globalization. During the seminar, Prof. K. Rama Mohan Rao said that the “MSMEs are constant endeavor of the State as well as Central Government to promote a conducive ecosystem for the growth and development of entrepreneurship in India. MSME is the growth engine for the state as well as national economy, contributing significantly to the GDP, employment creation and wealth – both capital and social”. On the second day (30-03-2019) of the seminar, Prof. R. Sudarsana Rao addressed the gathering and said that the “Micro Small and Medium Enterprises (MSMEs) sector is a major contributor to the socioeconomic development of the country and youth should utilize the government schemes to become entrepreneurs”

Dear Dr. Nair,

This is with reference to your proposal seeking financial assistance for organizing the International Seminar on "**Impact of Globalization on MSMEs- Prospects, Challenges and Policy Implications on Growth**". Your application has been considered by the Expert Committee and I am pleased to inform you that the Committee has recommended an amount of **₹ 3,00,000.00 (Rs. Three lakh only)** for organizing the International Seminar.

You are therefore, requested to kindly submit the following:

- Exact schedule/programme of the National Conference. Please ensure that it should not be changed in any case.
- Confirmed/Final list of participants with their e-mail confirmations from outside India, if it is International Seminar/ Workshop/Conference.
- Publication Plan (200 words)
- PFMS Registration details of your University/Institution (Form enclosed)
- Plan of seminar coverage (200 words)

The formal sanction letter will be released only after the receipt of the above mentioned documents. You are required to do the needful at the earliest.

Yours sincerely

*(Dr. Upendra Choudhury)*

Vikrama Simhapuri Univerity, Nellore entered into MoU with Nayoga Educational trust on 18<sup>th</sup> March, 2019 on Human ethics and moral values, Yoga & Meditation, Skills to achieve personal excellence... etc.

MCG/INT/00001

**MEMORANDUM OF UNDERSTANDING**

This Memorandum of Understanding (MoU) is entered into and executed on the 18 (Day) of March (Month) 2019 (Year) at NELLORE to establish a Partnership relationship by and between:

1. The Parties:

a. **NAYOGA EDUCATIONAL TRUST (NET)** is a registered (NGO) having its registered office at Ganga Jyoti, Madhavani Street, Hanumanpeta, Nellore City, 524001 Andhra Pradesh, India. PIN: 524002. Registered through its Authorized Signatory referred as NET as Partner 1. Registered through its Authorized Signatory: T.S.V. Durga

AND

b. **VIKRAMA SIMHAPURI UNIVERSITY (VSV) KAGITURU NELLORE** is an UNIVERSITY established by Government of Andhra Pradesh, 525011 Nellore District, Andhra Pradesh, India. PIN: 525011. Registered referred to VSV as Partner 2. Registered through its Authorized Signatory: AJAY PRASAD

Therefore said signatories/ institutions are herewith referred to individually as Partners and collectively as Partners.

2. Purpose:

- a. To conduct Human Ethics and Moral Values, Yoga and Meditation, Skills to achieve Personal Excellence workshop for interested students and faculty of Partner 2.
- b. To cooperate in mutual exchange of information and collaboration in Classroom, Research, Extension and Training activities related to Yoga.
- c. To exchange academic materials and publications as well as the exchange of faculty members for research, lectures and discussions.
- d. To promote appropriate joint research projects and joint courses of study, with particular emphasis on national and internationally funded projects.
- e. To provide consultancy as technical experts related to mutual areas of interest.
- f. The Parties through mutual consultation and agreement will discuss and agree upon additional responsibilities, if any.

**Objectives:**

The Parties' intent is mutually beneficial to have a formal understanding between them to ascertain the students of the institutions above (VSVU (Vikrama Simhapuri & Moral Values), VIKRAMA (Yoga & Meditation), NET) (NET as Advance Personal Development, Extension, research) support and other services to
