Report

Brahmas IAS Academy Director, Sri.P.Brahmananda Reddy were given advice about the pattern of exams, their preparation techniques, strategies to succeed in the competitive world. Also boosted confidence and mentally prepared them for competitive exams.

- Gave login to Brahmas Academy App, an online app, where exam oriented questions, topic wise, daily current affairs are available.

This is helpful in bringing more conceptual clarity for the students. Individual assessment is also done and doubts are also cleared at the individual level

NELLORE -524 324. AP INDIA

Name of the Programme: International Seminar on recent advances in emerging technologies

Date: 23.12.2019

Report

Dr. S.B. Sainath, Organizing Secretary outlined the objectives of the programme. The ability to program electrons on a material called silicon made possible technologies companies and industries that were at one point unimaginable to many of us, but which have now fundamentally changed the way the world works. The first half of this century, though is going to be transformed by a new software revolution the living software revolution and this will be powered by the ability to program biochemistry on a material called biology. And doing so will enable us to harness the properties by the properties of biology to generate new kinds of therapies to repair damaged tissues, to reprogram faulty cells or even build programmable operating systems out of biochemistry. If we can realize this and we do need to realize it, its impact will be so enormous that it will make first software revolution pale in comparison and that's because living software would transform the entirety of medicine, agriculture and energy and these are sector that dwarf those dominated by IT. Imagine programmable plants that fix N_2 more efficiently or resist fungal pathogens or even programming crops to be perennial rather than annual enable us to double your crop yield each year that would transform agriculture and how well keep our growing and global population fed or Imagine programmable immunity, designing and harness molecular devices that guide your immune system to detect eradicate or even prevent disease. This would transform medicine and how well keep our growing and aging population healthy. We already have many of the tools that will make living software a reality. We can precisely edit genes with CRISPR technology. We can rewrite the genetic code, one base at a time. We can even build synthetic circuits out of DNA. But figuring out how and when wield there tools is still is a process of trial and error. Dr. Suresh Babu Naidu Durban University highlighted the embryonic stem cells. He said that these are unique because they are totally nave. They can become anything they want: brain cells, heart cells, bone cells, lung cell/ an adult cell type. It need deep expertise, years of specialisation and experimental protocols are difficult to discover and too often, difficult to reproduce. So programming biology is not yet as simple as reprogramming your computer. Living system self generate and self organise they operate at molecular scales and these molecular level interactions led generally to robust macro level scale output. They can self repair if we could understand the biological programs. It would transform our ability to understand how and why cells do what they do. Prof. Sudarsana Rao, Hon'ble Vice Chancellor, V.S. University, Nellore highlighted the need for emerging technologies. Prof. G. Raja Rami Reddy and Prof. P. Sreenivasula Reddy mentioned the emerging technologies in biomedicine. The second half of last century was completely defined by the technological revolution, the software revolution.

Dr. S. Elumalai, Professor of Biotechnology, University of Madras disseminated the emerging technologies in the field of micro algal research. Prof. K.R.S. Sambasiva Rao Hon' ble Vice-Chancellor Mizoram University, Mizoram highlighted the role of intellectual property rights about the new inventions of the emerging technologies. Dr. Nobuyoshi Yamashita Chief Senior Research Scientist, NIAIST- Ibaraki, Japan elaborated the role of entrepreneurship activities associated with emerging technologies. He also explained the pollution activities and their impact on the mankind. Prof. Fadzilah Deputy Director, Institute of Marine Biotechnology, University Malaysia Terengganu. Malaysia Dr. Prasada Rao S. Kodavanti Neurotoxicology, Toxicity assessment division Research triangle park, USA Prof. P. Sreenivasula Reddy UGC-BSR Fellow, Dept. of Zoology, S.V. University, Tirupati. Dr. Suresh Babu Naidu Durban University of Technology, South Africa, Dr. Shamsul Bnhri. Bin Abd. Razak Faculty of Fisheries and Food Sciences University Malaysia Terengganu, Malaysia Dr. Mohammed Arifullah Institute of Food Security and Sustainable Agriculture (IFS SA), University Malaysia Kelantan, Malaysia Dr. Muhd Danish -Daniel Faculty of Fisheries and Food Sciences University Malaysia Terengganu participated in the event and elaborated the role of emerging technologies such as Next generation sequencing and Mass spectroscopy.

**“Communication Skills and
Employability Skills”**

(Sponsored by Ministry of Youth Affairs & Sports, Govt. of India)

21st -23rd November 2018

Organized by

VSU NSS CELL UNIT-III

While there always job-specific skills that an employer is looking for, most employers also want you to have some general skills. These general job skills are sometimes called "employability skills". Employability skills are a set of skills and behaviours that are necessary for every job. While your education and experience may make you eligible to apply for a job, to be successful in the role you will need to exhibit a mix of skills: 'employability skills'. Having employability skills not only help you to get a job but also help you top in your work places. Positive attitude, Teamwork, Self-management, Communication, Willingness to learn, problem solving and decision making skills are few of the examples of employability skills.

In this context, VSU NSS Unit-III organized a three day Workshop on “Communication skills and Employability skills” for the benefit of VSU NSS Unit-III volunteers (2nd, 3rd Yr MCA, 2nd Yr M.com, MA (Telugu), MA (Political Science & Public administration) from 21.11.2018 to 23.11.2018 with the financial assistance of Ministry of Youth Affairs and Sports, Govt. of India. All the registered participants were provided a participation certificate, Workshop Kit, Lunch and tea for free of cost.

This three days workshop aimed at improving the productivity of the student participants through sessions on different themes that includes Employability Skill Development, Personality Development, Soft Skills, Leadership and Managerial Skills, Value education and many more. The workshop is divided into 9 sessions for lecture and each session was shared by a faculty member /resource person who has particular expertise in the area covered by that session.

Inaugural session was started on 21.11.2018 at 10:00 AM at Sir C.V. Raman Seminar hall, Administrative building Vikrama Simhapuri University, Nellore with the welcome address by Dr. Y. Vijaya, NSS Programme officer of Unit-II, VSU. Prof. Ande Prasad, Principal & Dean Faculty of Science of V.S.U has presided over the function. Prof. R. Sudarsana Rao, Vice-Chancellor, Vikrama Simhapuri University, Nellore was the chief guest. Prof. A. Prasanna Kumar, Former-Rector, Andhra University & President, Centre for Policy Studies, Visakhapatnam was the distinguished guest. Prof. A. Durgaprasada Rao, Registrar V.S University was the guest of honour.

The function was started with invocation followed by lightening of lamp by the chief guest and other guests on the dias. The Convenor of the workshop Prof. Ande Prasad presented the scope and objectives of the workshop. Further, in his presidential address congratulated the ex-NSS Programme officer, Dr. K. Ramesh Reddy for obtaining recognition at level and

appreciated present NSS programme officer, Dr. Uday Sankar Allam for organising this event and emphasised the impact of employability skills.

Prof. R. Sudarsana Rao, Chief Guest and Vice chancellor, Vikrama Simhapuri University, Nellore mentioned the importance and relevance of the work shop theme in the contemporary scenario. He also discussed the about how the communication and employability skills help the youth to tackle current employment scenario and job prospective. He also spoke about the importance of the theme of the workshop and prospective in the international scenario. He also stated that these types of workshops are more beneficial to the students who are the upcoming researchers and students preparing for competitive exams. Prof. A. Prasanna Kumar, Former-Rector, Andhra University & President, Centre for Policy Studies, Visakhapatnam spoke about "Importance of Value Education". At the end of the inaugural session the Distinguished Guest was felicitated by university authorities, finally vote of thanks was proposed by Dr. Kiranmai Chadipiralla, Assistant Professor and University NSS advisory committee member, V.S.U, followed by national anthem.

After inaugural session, lecturers were arranged as listed in programme sheet. Finally certificates were handed over or distributed to all the participants by Prof. Ande Prasad, Principal and Dr. R. Prabakar, NSS programme officer Unit-I, Vikrama Simhapuri University, Nellore. This was followed by feedback from the participants. All the participants were satisfied about technical sessions, practical training, arrangements and hospitality. All the participants expressed that the workshop has given excellent knowledge regarding the communication skills and employability skills. They also expressed that if the workshop would extend for two more days it would be of more fruitful. There were very interesting discussions during the workshop on each topic. The copies of all the presentations were provided to each participant. I wish and hope that all the participants enjoyed these days and make use of the opportunity to improve their employability skills. Further, I am confident that the learning outcomes of this workshop will go long way in shaping the participants career.

This workshop was made possible with funding from the Ministry of Youth Affairs and Sports, Govt. of India and I am immensely grateful for Prof. R. Sudarsana Rao, Vice Chancellor for his guidance and encouragement. I am also thankful to other organising committee members including Prof. Ande Prasad and Dr. K. Ramesh reddy. Finally, I am grateful for the efforts of all those helping hands of Vikrama Simhapuri University who helped to make this workshop possible including Dr.G.Sujay, Dr. R.Prabakar, Dr. K. Neela Mani Kanta and Dr. Chadipiralla Kiranmai, and Dr. T. Veera Reddy. Last but not least, without the support of VSU NSS Cell staff including Ms. J.Swathi, Mr. Usman Ali, Mr. Sivaiah, and Ms.Lakshmi it was impossible to organize this workshop.

Name of the Event: Impact of Globalization on MSMEs- Prospects, Challenges and Policy Implications on Growth

Date: 29.03.2019

Brief Report

During the seminar i.e. on the first day (29-03-2019), Principal, Prof. K. V.S. N. Jawaharbabu addressed the gathering and invited all the guests. The organizing secretary highlighted the objectives of the seminar. Prof. R. Sudarsana Rao and Prof. K. Rama Mohan Rao mentioned about the perspectives of Micro, Small & Medium Enterprises (MSMEs) and its impact on globalization. During the seminar, Prof. K. Rama Mohan Rao said that the "MSMEs are constant endeavor of the State as well as Central Government to promote a conducive ecosystem for the growth and development of entrepreneurship in India. MSME is the growth engine for the state as well as national economy, contributing significantly to the GDP, employment creation and wealth – both capital and social". On the second day (30-03-2019) of the seminar, Prof. R. Sudarsana Rao addressed the gathering and said that the "Micro Small and Medium Enterprises (MSMEs) sector is a major contributor to the socioeconomic development of the country and youth should utilize the government schemes to become entrepreneurs"
