WOMEN GRIEVANCE CELL
NELLORE-524 324

GENDER SENSITIZATION

It is well prepared to handle and respond to gender sensitive issues and provide an environment where men and women can work together with a sense of personal security and dignity. For this purpose the institute has conducted gender sensitization awareness programmes periodically. The cell engrosses the awareness about gender issues and working towards and creating an enabling environment of gender justice. There is a need of gender sensitization to create awareness among the teaching /non- teaching staff about the importance of gender sensitivity in organization. Without being sensitive to the needs of a particular gender, an individual may refrain from understanding the opposite gender.

Main objective of Gender Sensitization are:

- To make the young boy's and girl's gender sensitive and create positive values that supports the girls and their rights.
- To provide overall guidance to the peer group in integrating /mainstreaming gender in all activities of the Institution in the form of focused group discussions, debates, poster making competitions etc.
- To provide an integrated and interdisciplinary approach to understand the social and cultural constructions of gender that shapes the experiences of women and men in society.
- To generate the awareness in regard to equality in law, social system and democratic activities.

To accomplish the above objectives gender sensitization need and importance was explained in induction/orientation and fresher's programmes at university level as well as at the department also. Women activists and scholars will invite on line and off line and they enlighten the students about gender equality.
