CONCEPT NOTE OF THE COMPETITIONS

In view of the Vigilance Awareness Week, Power Grid Corporation of India Ltd., in association with **Vikrama Simhapuri University**, Nellore, has proposed to jointly organize Debate Competitions for the UG & PG college students in Nellore on the topic “Public Participation in Promoting Integrity and Eradicating Corruption,” during their Vigilance Awareness Week during 31 – 05 October 2017.

EXECUTION PLAN:

A Two Phase plan was planned to organize this event:

Phase 1: The UG & PG Colleges affiliated to the University in Nellore, on receiving the Flyer and Brochure of these competitions, are requested to conduct Debate competitions in both English and Telugu, on the topic mentioned. The colleges are requested to send TWO entries (One student to debate in English and the Other in Telugu), to the University College by sending the names of the finalists to the **mail ID:**

veerareddy.thummaluru@gmail.com

The colleges are to send the names of the finalists of the Debate in English & Telugu, to the above mail ID latest by 29 October 2017.

Phase 2: Each college is requested to send the (Two) participants with a teacher in-charge accompanying them to attend the Final Competitions in the University College.

FINAL COMPETITION: The Final competitions will be conducted in Vikrama Simhapuri University College.

Venue: Sir C.V. Raman Seminar Hall, VSU College, Kakatur

Date: 01 November 2017

Tea, Snacks & Lunch is arranged to all the participants, accompanying teachers & the Guests.

CENTRAL VIGILANCE COMMISSION (CVC)

CVC being the apex Vigilance Institution of the Country, has been striving to promote probity and integrity in Governance One of the primary objectives of CVC is to create public awareness against corruption. Observance of Vigilance Awareness Week every year is one such measure for achieving this objective. The Commission has decided that this year the Vigilance Awareness Week would be observed from 31st October, 2016 to 5th November, 2017. This year the theme of Vigilance Awareness Week is “PUBLIC PARTICIPATION IN PROMOTING INTEGRITY AND ERADICATING CORRUPTION”.

The Commission has been laying stress on the efficacy of preventive vigilance in curbing corruption. Preventive Vigilance could broadly be described as a package of measures to improve systems and procedures in a way to reduce scope for description and eliminate corruption.

Corruption is a serious unethical practice that undermines trust and confidence in public officials and public confidence can only be gained by integrity in governance. Economic and social progress, rule of law, democratic values and a strong civil society are some of the basic prerequisites in building integrity system to sustain the fight against corruption in society. In order to attain a corruption free society, all stake holders including government, citizens and also the private sector must share the responsibility for creation of awareness of corruption as well as refrain from indulging in unethical acts

Aware, active, involve and empowered public, is therefore, essential to any anti corruption campaign. Anti corruption strategies are not simply policies that can be planned in advance and isolation, but often a set of subtler insights that can be developed only in conjunction with public participation Combating corruption is, therefore, not just a matter of making laws and creating institutions, but is deeply rooted in human values

and morals of individuals and the fight against corruption cannot be won without citizens support, participation and active vigilance by all concerned. The Commission, has, therefore chosen "Public Participation in promoting integrity and eradicating Corruption" as the central theme for Vigilance Awareness Week 2017.

POWER GRID

Power Grid Corporation of India Ltd., the Central Transmission Utility of the country under Ministry of Power is one amongst the large Power Transmission Utilities in the world. POWERGRID is playing a vital role in the growth of Indian Power Sector by developing a robust Integrated National Grid associated in the flagship programme of Govt. of India to provide power for all. The National Grid divided into give integrated regional grids is engaged in power transmission business with the responsibility of planning, coordination, supervision and control over inter-state transmission system.

Synchronisation of all regional grids helps in optimal utilisation of scarce natural resources by transfer of Power from Resource Centric regions. Further, this paves way for establishment of vibrant electricity market facilitating trading of power across regions One Nation One Grid shall synchronously connect all the regional grids and there will be one national frequency.

POWERGRID has a large network covering most of India's interstate and inter-regional power transmission system that carries power over length and breadth of India. It has a primary transmission system of 226 EHV sub stations, over 1,42,989 ckt Kms of transmission lines at 800/765 kV, 400 kV, 220 kV & 132 kV EHvAC & +500 kV HVAC levels with a transmission Capacity of about 3,09,684 MVA and Inter Regional Power transfer capacity of 78,000 MW.

For the first time, POWERGRID has been recognised has 'One of India's Best Companies to Work For' 2016 by 'The Great Place to Work@ Institute', in partnership with

The Economic Times, after covering almost 800 plus organisations in India.
